

TENDER REQUEST FOR LAUNCHES MARCH 2027

Contains tender requests for launches mainly in March 2027. A number of launches with later launches have also been included. Please note that there are different deadlines for the offers. For a few launches, purchases for the fixed range will be made in combination with purchases for TSV/TST. More information about TSV/TST can be found in the introductory text of previously published tender requests for TSV.

The submitted offer must correspond to what is requested in the tender request and be completely filled in. Please observe that many in the tenders occurring requirements etc. are specified through clarifications and examples in the so-called Tenders quick guide which is published on the Suppliers' portal. Please make sure that the most recently updated version of the Tenders quick guide is used during completion/submission of offer.

Please note that the supplier who is to launch an organic product must be certified by a controlling body, ie it is not enough that the product is certified organic. Your Eco-code must be uploaded to the Suppliers' Portal under My Company / Company Information no later than the launch samples deadline. The Eco-code needs to be updated when the certificate is renewed. For questions about the function and organic certification, please contact Leverantorsadministration@systembolaget.se.

Special information regarding climate reporting requirements

For those tender requests where requirements for climate reporting (PCF) are specified, the tender winner must have reported PCF values for the product to the extent specified on the Portal (Sustainability/Environment & Climate/Quote Requirements PCF – Product Carbon Footprint) prior to launch. Please note that the reporting requirement does not form part of the selection criteria for offers and only concerns the winner. PCF reporting is used for follow-up and aggregated sustainability analysis, nor is there a requirement for any specific PCF value.

Reporting will be possible when the article number is available and must be completed to the requested extent no later than the date of the launch samples deadline for the article, see the Launch calendar on the Suppliers' Portal.

Special information about the purchase process for A-classed tenders

By significantly shortening the time between the submitted offer and the notice of purchase, the risk of discrepancies between the submitted offer and the actual facts decreases. For A-tenders the tender sample is submitted together with the offer in order to be tasted shortly after, after which a quality audit can be carried out on site. Below is a more detailed description of the process:

Sunday week 0	The tender request closes in the portal at 23:59:59
Monday week 1	Offer examination and request of samples, alternatively rejection of offer.
Tuesday week 1	Tender samples are submitted.
Wednesday week 1	Deadline tender samples at 16:00
Thursday/Friday week 1	Tender tasting, booking of quality audit with number one and two in the tasting. Information to number three.
Week 2	Quality audits on site followed by a possible purchase order.

Deadline for review to ASN

Systembolaget always welcomes a Supplier, who wants a decision from Systembolaget further motivated/explained, to contact Systembolaget. In addition, the Supplier always has the right to have a decision reviewed by the Alcohol Assortment Board (ASN).

As previously announced on the portal, ASN now refers in one of its decisions to the Law of appeal of decisions by specific authorities with public administration duties, and the deadline that is stipulated as three (3) weeks. ASN argues that the law does not contain any restriction to authorities with public administration duties and finds it applicable to Systembolaget's decision, in the absence of a different regulation in another law or constitution.

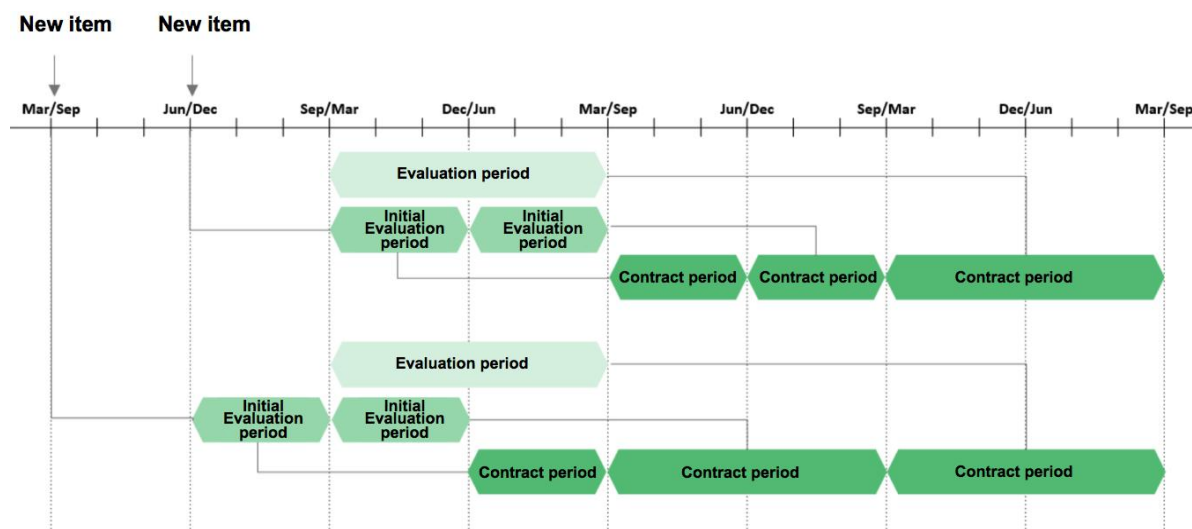

As a result of this decision, Systembolaget has entered this deadline in the general purchasing conditions of Systembolaget (Purchase Terms) from March 1, 2018. This means that any request for a review of a decision made by Systembolaget must be submitted to ASN within three (3) weeks from when the supplier received information about the decision. ASN is reviewing whether the appeal has been received in time.

Guaranteed contract period is nine (9) months

The first evaluation period for articles with launch date in March 2027 with the following ranking is from 2027-09-01 until 2027-11-30. All new articles have the possibility to, after evaluation and ranking, remain in

the fixed range. If this is the case, the contract period is extended by three (3) months, to then be extended either for a further three (3) months (if the extension is from June 1st or December 1st) or for six (6) months (if the extension is from March 1st or September 1st). After that, the contract period can be extended by six (6) months at a time, depending on the result of the coming evaluation periods.

See below the scheme for news launches and evaluation periods.

Please note that for products that on launch day are organic and/or ethical, the guaranteed contract period is twelve (12) months, i.e. the first evaluation period starts six (6) months after launch.

Clarification of headers in the tender request and guidelines regarding how to fill in offers are published on the portal in the Tenders quick guide. We ask you in particular to note the following:

Distribution:

Each launch receives a distribution according to one or two range requirements, where the range requirement "Standard" includes store groups 1, 2 and 3, and the range requirement "Premium" corresponds to store groups 4 and 5. Within each range requirement, the store size (A=smallest store, E=biggest store) that will have the article in its assortment, is specified. This means that, as an example, an article with distribution "Standard ABCD, Premium CD" will be put in the range of all stores within store groups 1, 2 and 3, and the stores of the sizes C and D within store groups 4 and 5. The distribution is also given as market coverage (MT) and number of stores (AB) within brackets, as they were given in the launch plan where the launch was first announced. Market coverage is an indication of how big a part of the total sales of the segment a certain shop distribution represents (the market coverage varies from segment to segment since all segments don't have the same sales in all stores). We ask you to note that the given figures for market coverage and number of stores must not be understood as a guarantee or similar, when it comes to how big distribution the requested product will have, since the conditions (sales patterns and/or the exact number of stores) can be different when the products that are now requested are launched.

Available volume (liters):

The minimum volume, identical to the tender sample, that you as a supplier must have available to answer the request. Available volume is not a sales forecast, or the amount that is required to keep distribution or similar.

Price to consumer:

The prices in the tenders are shelf prices to consumers, i.e. sales prices. For products with cash refund for recycled product, the price to consumer is stated excluding refund. In the offer however, the price to Systembolaget must be stated. Please note that in the price calculation on the Suppliers' Portal, the stated launch date must be specified when calculating the price.

Packaging:

For certain types of packaging, it is possible to offer equivalent or more environmentally friendly packaging provided that this is evaluated in the same segment as follows:

If a glass bottle is requested, it is always possible to offer a PET bottle or paper packaging in bottle format (eg Frugalpac).

If PET bottles are requested, it is always possible to offer paper packaging in bottle format (eg Frugalpac).

If Bag-in-Box is requested, it is always possible to offer a pouch.

Note that the reverse does not apply. For example, if a pouch is requested, it is not possible to offer a Bag-in-Box. When PET bottles and cans are requested, these must be part of a return deposit system. Please note that regarding packagings in the form of plastic bottles (PET) and metal cans, which are subject to legal requirements to be part of an approved return deposit system (Returpack), Systembolaget does not approve offers with packagings that has received an exemption from The Swedish Environmental Protection Agency. Articles with such a dispensation are not approved at the time of launch either.

Sub-contractors:

For wine, it must be specified where the volumes come from if the whole volume offered is not vinified by the stated producer. Please state all sub-contractors.

For sub-contracted beer, cider and spirits production for example, it must be specified where the product receives its final character.

Guarantee of Supply:

In the case a Guarantee of Supply is requested, this must be completely filled out. Ignored or wrongly filled out fields lead to rejection of offer. The stated producer in the document Guarantee of Supply must be the same as the producer stated in the offer. Furthermore, the stated "Supplier" must be the supplier that offers to Systembolaget. In the Guarantee of Supply, the size of volume included in the offered wine per tank, must be clearly stated. Note that it is the volume, to be used for the offered wine that needs to be specified per tank. Each tank must also be specified with tank number. On page 2 of the form, a new line must therefore be used for each individual tank. If the lines are not enough, you can use the page 2 of the form in several copies. If barrels occur and they are of the same size, they can be written on the same row with a total volume, provided that the number of barrels and barrels size is shown. If barrels of different sizes are used, they must be separated and written on different lines. In this case, the barrel number, lot number or equivalent identification used by the producer must be indicated in the column "Tank number". Please see also "Quick reference guide Guarantee of Supply and Audit for A-rated offers" on the Suppliers' Portal. Please ensure Submitted Guarantee of Supply is based on the current version as specified in the applicable version of Purchase terms and conditions that can be found on the Suppliers' Portal. You will find Guarantee of Supply under the tab Documents under Tender/Tender requests. Usage of old, not actual versions will be declined.

Specific information about new requirements for mapping during launch:

In all launches of articles for the Fixed Assortment regardless of origin, the supplier must, in connection with the submission of the documents and samples required to be launched, also enter information about the product's supply chain. As recently informed, all sustainability-related information will be collected in the new Sustainability Platform from September 1st, 2019 (more information can be found on the Suppliers' Portal). Before the launch sample deadline, the information below must be available in the Sustainability Platform:

- Mapping of the product supply chain
- Any certificates

More information about the mapping process can be found on the Suppliers' Portal.

Other:

Offers:

Suppliers who wish to reply to tenders do so through the Suppliers' Portal. Offers and attached documents must be submitted through the portal up until midnight (23:59) on offer deadline day.

Attached documents:

All documents and certificates that Systembolaget asks for (as for example Fairtrade and Fair for life certification) must be current and valid. Certificates that have been suspended or in any other way temporarily or permanently revoked, are not to be considered valid.

Tender samples:

The products are purchased based on their sensorial quality. Tender samples, launch samples and products delivered to the stores must therefore agree sensory. See the paragraph on quality assurance. How many tender samples that must be submitted can be found in the Tenders quick guide for product samples on the Supplier Portal. Note that if too few samples or incorrectly labeled samples are submitted, these will not be registered.

The tender samples must be:

- physically, chemically and biologically stable.
- treated in the same way as the final product is intended to be treated. For example, if the final product will be filtered, the tender sample must be filtered.
- blended in the same proportions and of the same components/ingredients as the final product.

Quality assurance of launches

From supplier	From supplier	From store	From store
Sample saved	Sample saved	Sample saved	
Tender sample	Launch sample	Sales sample	Post control after 3 months
Sensorial tasting	Sensorial tasting	Sensorial tasting	Sensorial tasting
Chemical analysis	Chemical testing	Labeling	
	Labeling		
	Characteristics	Triangle test	
		Comparative quality test	
		Comparative Chemical analysis	

The quality of our launches is followed up at four (4) different occasions according to the description below.

Tender samples:

- The winning sample is chosen through a sensorial blind tasting.
- The winning sample for the fixed range goes through a chemical analysis from which the results are used as a reference for any possible discrepancies later in the process.
- The tender sample is archived.

Extra tender samples

As a supplier of a winning tender sample to an A-classified launch, you must be prepared to send in extra tender samples within four (4) working days from notification of the results, in order to be considered for a purchase. This means that already at the submission of the tender samples, you must have access to extra samples according to the below:

- Wine two (2) pcs
- Sparkling wine two (2) pcs
- Wine & Sparkling wine in can four (4) pcs

Please see also "Tenders quick guide for tender samples" which is published on the Suppliers' Portal.

Extra tender sample for beer offers

As supplier of a winning tender sample for launches in the fixed range, one (1) extra tender sample must be handed in within (4) days from that the result has been announced.

Launch samples:

- Sensorial comparison to the tender style- and taste profile.
- Chemical analysis - secures that the sample fulfills the prevailing legal requirements.
- Packaging/presentation control: the packaging is controlled against the prevailing legal requirements, laws, rules and specific demands in the tender request.
- For A-classified tenders, a sensorial and chemical comparison will be made with the extra tender sample.

Sales sample:

- The store sample is compared to the tender sample, all products are tested sensorially after delivery to the store before day of launch.
- If a discrepancy is established, a more sophisticated sensorial analysis is carried out, a so-called triangle test.
- If the discrepancy is confirmed through the triangle test, a comparative quality tasting is carried out.
- A chemical analysis is made to secure that the store sample agrees with the tender sample.
- The sales sample is archived.

After control:

- Test after three (3) months.
- Sensorial and, if necessary, chemical analysis
- Test after three (3) months.
- For A-classified tenders an after control will be carried out every fourth week for six (6) months.

Range:	Fixed range
Distribution:	Standard 1BCD 2ABCD 3ABCD, Premium 4ABCDE 5ABCDE 6AB (MT 96%, AB 425)
Launch date:	2027-06-01
Deadline tender answer:	2026-08-16
Deadline tender sample:	2026-08-19
Style and taste profile:	We are looking for a fruity and full-flavored red wine with hints of dark berries, violets and oak character.

Product requirements:

Price to consumer (SEK):	Max 229
Country of origin:	Argentina
EU product category:	Wine from third country with geographical denomination.
Type of product:	Red wine
Volume:	3 000 ml
Packaging:	Bag-in-Box
Vintage:	2026
Available volume (liters):	288 000
Grape composition:	Minimum 90% Malbec
Designation of origin (as stated on packaging):	Must be stated
Method of aging:	The wine must be fully or partially aged in oak barrels, alternatively been in contact with oak staves or oak chips.
Other requirements:	The grape variety Malbec must be stated on the front of the packaging. The product must meet existing criteria for organic wine according to current EU legislation, and/or hold a certificate from Bodegas de Argentina, and/or be certified by Fairtrade or IMO-Fair for life as fair trade. The controlling body and the fact that the wine is organic/certified by Bodegas de Argentina/ certified by Fairtrade or IMO-Fair for life, must be clearly stated on the label/packaging. Within three (3) days after the tender winner has been informed of the tender win, a valid certificate, alternatively documentation from Bodegas de Argentina, in Swedish or English must be received by Systembolaget proving that the specified producer is certified within one of the four (4) mentioned certification types. The tender winner must, no later than the deadline for launch samples, have reported the product's PCF values to the extent specified on the Suppliers' Portal (Sustainability/Environment & Climate/Tender requirements PCF – Product Carbon Footprint). Please observe that only one product per producer can be offered.

The following mandatory information must be stated in the offer:**Product that will be offered**

All fields to be completed.

In the field Method of aging, information about method of aging and aging time must be stated.

The following fields can be disregarded: Cash refund per unit recycled (SEK), Type of product, Available volume of the following vintage (liters), When the following vintage is ready for delivery, Type of closure and Comments.

692-2 Australia, pinot noir, B-i-B, sustainability certified, PCF (A)

Range:	Fixed range
Distribution:	Standard 1BCD 2BCD 3BCD, Premium 4BCDE 5BCDE 6AB (MT 93%, AB 378)
Launch date:	2027-06-01
Deadline tender answer:	2026-09-06
Deadline tender sample:	2026-09-10
Style and taste profile:	We are looking for a fresh, fruity and grape-typicality red wine with notes of red berries, strawberries, raspberries, spices and hints of oak.

Product requirements:

Price to consumer (SEK):	Max 249
Country of origin:	Australia
EU product category:	Wine from third country with geographical denomination.
Type of product:	Red wine
Volume:	3 000 ml
Packaging:	Bag-in-Box
Vintage:	2026
Available volume (liters):	288 000
Grape composition:	Minimum 85% pinot noir
Designation of origin (as stated on packaging):	South Eastern Australia or underlying GI
Method of aging:	The wine must be fully or partially aged in oak barrels, alternatively been in contact with oak staves or oak chips.
Other requirements:	The grape variety and designation of origin must be stated on the packaging. The product must be certified Sustainable Winegrowing Australia (SWA). The controlling body and that the wine is SWA must be clearly stated on the packaging. Within three (3) days after the tender winner has been informed about the tender win, a valid certificate, in Swedish or English, must be received by Systembolaget confirming that the stated producer and any subcontractors meet the criteria for SWA. The tender winner must, no later than the deadline for launch samples, have reported the product's PCF values to the extent specified on the Suppliers' Portal (Sustainability/Environment & Climate/Tender requirements PCF – Product Carbon Footprint). Please observe that only one product per producer can be offered.

691-14 Red wine, supplementary size, supplementary size from B-i-B to paper packaging, PCF (B)

Range:	Fixed range
Distribution:	Standard 1BCD 2BCD 3BCD, Premium 4BCDE 5BCDE 6B (MT 93%, AB 378)
Launch date:	2027-03-01
Deadline tender answer:	2026-09-11
Background:	The purpose is to extend the offer of wine in environmentally friendly packagings. Articles represented in the Fixed range, segment <i>2301a RÖTT VIN BOX >2L (0–83 KR/L)</i> per the 1st of March 2027 are offered the opportunity to supplement with a paper packaging for a launch in March 2027. One (1) product will be purchased. Offers received are ranked based on the contribution that the existing articles have generated during the period 1st of March 2026 – 31st of August 2026, where the highest contribution leads to a purchase. No tender samples will be requested on this reference. Articles that have already won a corresponding previous supplementary tender request cannot offer on this tender request.

Product requirements:

Price to consumer (SEK):	Max 79 SEK/750 ml, max 89 SEK/1 000 ml
Type of product:	Red wine
Volume:	750 ml
Packaging:	Paper packaging
Vintage:	Same as existing article
Available volume (liters):	72 000
Designation of origin (as stated on packaging):	Same as existing article
Other requirements:	The offered product must in all aspects, apart from size of packaging and material, correspond with the existing article in the Fixed range. The tender winner must, no later than the deadline for launch samples, have reported the product's PCF values to the extent specified on the Suppliers' Portal (Sustainability/Environment & Climate/Tender requirements PCF – Product Carbon Footprint).

The following mandatory information must be stated in the offer:

691-27 Sparkling white, low alcohol, line extension (B)

Range:	Fixed range
Distribution:	Standard 1CD 2CD 3CD, Premium 4CDE 5CDE (MT 64%, AB 215)
Launch date:	2027-03-01
Deadline tender answer:	2026-08-20
Deadline tender sample:	2026-09-22
Background:	The aim is to expand the offer of wine with a lower alcohol content. The offered product must be a line extension to an existing product in Systembolaget's fixed range as of 2027-03-01 in the segment: SPARKLING WINE (80-99) or SPARKLING WINE (100-119). The brand must be the same as the existing item, but grape content and production method may vary. The selection is made through a tender tasting.
Style and taste profile:	We are looking for a fresh and fruity sparkling white.

Product requirements:

Price to consumer (SEK):	Max 99
Alcohol level according to label (vol. %):	Max 9,5
Country of origin:	Must be stated in the offer.
EU product category:	Must be stated in the offer.
Type of product:	Sparkling wine
Volume:	750 ml
Packaging:	Bottle
Available volume (liters):	24 000
Type of closure:	Mushroom stopper (Champagne cork)
Grape composition:	Must be stated in the offer.
Sugar content (g/l):	Must be stated in the offer.
Designation of origin (as stated on packaging):	Must be stated in the offer.
Other requirements:	Please observe that only one product per producer can be offered.

The following mandatory information must be stated in the offer:**Product that will be offered**

All fields to be completed.

The following fields can be disregarded: Cash refund per unit recycled (SEK) if the offer refers to a packaging without cash refund, Type of product, Method of aging, Vintage, Available volume of the following vintage (liters), When the following vintage is ready for delivery and Comments.
